THE MINUTES OF THE REGULAR MEETING OF THE MRAC HELD JAN., 22nd

The meeting was called to order by Pres. Kircher at 8:20 PM.

Mr. Felber called the roll in the absence of the Secy. The roll call revealed 24 members present.

As our scheduled speaker failed to appear our Mr. Wollaeger talked and led a discussion The Control Of A Sawtooth Oscilator In An Oscilliscope. The talk was very well received by the membership.

The meeting was then turned over to a general rag chewing session and no raffle was held due to the few men in attedance.

The meeting was adjourned at 8:45 PM.

Respectfully Submitted,

Emil Felber, Acting Secy.
